My apology for interrupting your valuable time again; but I just wanted to also point out. That John Faulk was a broke candidate, just like I was in the Primary race.

That is why Faulk went out, and collected names to have his name on the ballot. But for some reason, the Harris County Republican Party did not accept those signatures. Ouch! 2000 + 500 more signatures is a lot of work. I felt pity for him. He was pissed and storm out! Well that's what was said - by one of the committee members, who work at the HCRP.

Then 1 hour later before the dead line. John Faulk comes up with the cash!
Of having the rights of placing his name - on the ballot.

That's when the rumors started surfing and supposedly John himself...babbling [redacted] at some tavern - about how he really got the money. Which was from somebody from Sheila Jackson Lee's camp?

And if you go back, and look at his Campaign report; only 2 people gave money to Faulk's campaign.

Ma. Mary McKeown who's really, his campaign treasure and from the Richardson's family of three; each gave total in the amount of \$2,300.00 dollars each. Come on? Red Flag! That's NOT those people money. That's John Faulk's money - giving them the cold cash, and they RE-submitted back to his campaign.

Where did he get that money?

But looking at my past campaign report. I have legit contributions - from several folks. Which again - I will state - that it still did not equal to the amount of Five Thousand dollars. And because of that - that is why I didn't file to the FEC department. Again like I said in my 1st letter of defense. I wish I could have raised money.

Look the Primary race is over...Thank God. And I've move forward. So does John Faulk.

Enclosed is a copy - taken from the FEC website - search for John Faulk's campaign page.

Until then,
